Professional Summary

Junior Python/Django Developer with experience building full-stack web applications including AI-powered learning tools, expense tracking systems, e-commerce platforms, and healthcare systems. Skilled in Python, Django, JavaScript, PostgreSQL, and RESTful API integration. Strong focus on building scalable, user-friendly, and data-driven applications.

Technical Skills

Languages: Python, JavaScript, HTML5, CSS3, SQL

Frameworks&Tools: Django, Bootstrap, Git, GitHub, REST APIs, VS Code

Databases: PostgreSQL, SQLite

Other: Responsive Web Design, AI Integration, IT Support, Microsoft Office

Projects

AI Study Assistant (Flagship Project)

AI-powered learning platform built with Django and integrated with Groq API (Llama 3 model). Provides automated quiz generation, content summarization, and study assistance features.

Tech: Python, Django, Groq API, JavaScript, Bootstrap

- Implemented AI-powered quiz generation and summarization features.
- Integrated LLM API (Groq Llama 3) for intelligent responses.
- Built RESTful backend and dynamic user interface.

SPENDLYTICS - Expense Tracker

Expense tracking and analytics platform for monitoring spending habits and budgeting insights.

Tech: Python, Django, PostgreSQL, Bootstrap

- Built secure authentication and expense tracking system.
- Designed relational database models using PostgreSQL.
- Implemented budgeting analytics dashboard.

Hospital Management System

System for managing patients, appointments, and billing workflows in healthcare environments.

Tech: Python, Django, Bootstrap

- Implemented appointment scheduling and billing modules.
- Built role-based authentication system.
- Designed structured database using Django ORM.

Eddie's Gamehub (E-Commerce Platform)

Gaming e-commerce platform with cart and checkout functionality.

Tech: Python, Django, JavaScript, Bootstrap

- Developed shopping cart and checkout system.
- Implemented product and order management features.

Experience

Raslouw Private Hospital - Bed Booking Administrator

- Managed patient admissions and bed allocations.
- Maintained occupancy records and operational reporting.

NKN Consulting - Help Desk Support

- Provided hardware/software troubleshooting and IT support.
- Maintained IT inventory and issue tracking.

Netcare Waterfall Hospital - Administrator

- Managed documentation systems and compliance records.

- Supported administrative workflows.

Education

Diploma in Tour Operations - Rosebank College Braamfontein

Matric - EPP Mhinga High School
